

Augustine is a thoroughbred British academic and a Senior Fellow of the UK Higher Education Academy. He is a highly innovative, exceptionally talented, and extremely versatile professional with over 26 years of post-graduation experience that spans the petroleum industry, water/waste industry, and academia. Until recently, he was the Head of Civil and Environmental Engineering Cluster at the University of West England, Bristol (UWE). Before joining UWE in 2021, he worked for Coventry University for 13 years, where he rose from a Lecturer to an Associate Professor in Energy and Environment. He was the International Team Lead for the World Bank-funded Albertine Regional Sustainable Development Project in Uganda. He pioneered and led the development of Coventry University suite of energy programs which grew to become a School of Energy, Construction, and Environment in the Faculty of Engineering. He has many years' experience of international collaborations. He served as a Link Tutor to Ghana Technology University and a Visiting Professor to Kadir Has University, Turkey, Saveetha University, India, Cranfield University UK, University of Leeds UK, etc. He has severed as an external examiner for several UK universities, including Newcastle University, Heriot-Watt University, DMU Leicester, Robert Gordon University, and the University of Plymouth.

Before joining Coventry University, he was a Process Design Engineer at Severn Trent Water, where he was involved in several multimillion-pound projects. He also worked for Fugro Consultants as a QHSE Consultant. He consulted for various multinational companies operating in the upstream and downstream Oil and Gas sectors in West Africa, the UK, and the Middle East. He was involved in several projects for Nigeria Liquefied Natural Gas, Shell Petroleum, Shell Nigerian Gas, ExxonMobil, Addax Petroleum, ChevronTexaco, Total, Eni, Schlumberger, Oil data Wireline, Air Liquide, ConocoPhillips, etc. Augustine has consulted for several governments and parastatals in Nigeria, Uganda, South Sudan, Saudi Arabia, Ghana, Liberia, Tanzania, Cameroon, and Brazil.

His teaching and research are in the areas of sustainable energy, environment, water, safety, project management and teaching and learning in higher education.
